Creating the LaRC of 2050

Transform the Center to enable Langley to make vital contributions to NASA missions in the very long term. Establish a stimulating work environment, processes and infrastructure which reflect the accelerating pace of technology development and the associated societal changes.

A Center that is:

- Designed to enable Langley's role within NASA's research and development
- Configured and integrated to enhance and promote collaboration and productivity
- Flexible and adaptive to changing mission requirements
- Managed to promote effective strategic planning and informed decision making
- Environmentally sustainable
- Reliable
