MEMORANDUM OF UNDERSTANDING  
BETWEEN THE  
COMMANDER, NAVAL SAFETY CENTER  
AND  
NASA OSMA

Subj: RECIPROCAL EXCHANGE AND USE OF AVIATION SAFETY  
INFORMATION

1. This Memorandum of Understanding (MOU) between NASA OSMA and Commander, Naval Safety Center promotes cooperation between the two aviation safety organizations. The purpose of the MOU is to establish the requirements in accordance with Department of Defense Instruction 6055.07 for reciprocal exchange and use of aviation safety information including safety information protected by the concept of privilege for the FA-18, C-12, BAMS, T-34, C-20, H-1, P-3, T-38, C-9 and S-3 aircraft or UAVs. In cases where aircraft fleet changes occur, this list may be adjusted by an agreement by both parties with a new MOU or, if both parties agree, with an addendum to this MOU. The exchange of information will be accomplished by and between the Naval Safety Center and the NASA OSMA and no others.

2. The aviation safety information shared shall be used exclusively for safety purposes specifically, for the prevention of aviation mishaps and shall not be further used or disseminated. Each party shall take all necessary steps to ensure that the exchanged safety information is properly stored and protected and is not disclosed to any person, office, or other entity not employed by and authorized to have access to such information by the originating or receiving organization. All employees of NASA that are granted access to this information shall sign a non-disclosure agreement prior to receipt of this information. NASA OSMA agrees that it will forward all requests for the data or information made available by Commander, Naval Safety Center under this MOU, including Freedom of Information Act (FOIA), and media requests to Commander, Naval Safety Center for action and response.
