

## End-user Services MFD Seat Quick Reference Chart

The **MFD-Seat** requires that the Xerox MFDs will be phased-out as ACES comes on board. It provides combined network printer, fax, copier, and scanning capabilities in black and white (B&W) and color models as well as desktop and floor models. Some common requirements: pay-as-you-go service (i.e., not bundled in computing seat cost), placed at user/organizational-specified physical locations, pooled volume bands, managed print queues as part of Base Services and restricted access upon request, all consumables except paper included, bundled hardware, maintenance, support, 4-year refresh cycle, basic feature set, and 4-hour Return-To-Service.
