

President's Council on Integrity and Efficiency
Information Technology Roundtable
Robert W. Cobb, NASA Inspector General, Chair

Activity Status: *August 4, 2003*

- ❖ **The Roundtable has developed a workshop concept to share new and innovative information technology audit and assessment approaches among Roundtable members. The first workshop was conducted at NASA Headquarters on May 6, 2003. We hope to hold the next workshop the week of August 25, 2003. This workshop will include a session on wireless network security and potentially another session on a topic we are currently researching. We are still accepting suggestions for workshop topics and speakers** (*Oversight Working Group*).

- ❖ **E-Gov Act of 2002 Workshop – We continued to develop a “virtual” workshop on the Roundtable’s website. The website will include information about e-government policy and regulation, enterprise architecture/standards/infrastructure, legal issues, acquisition, cost efficiencies and problems, migration issues, and implementation/sustaining engineering** (*Coordinating Working Group*).

- ❖ **IT Roundtable Working Groups:**
 - *Investigations Working Group (consisting of investigative professionals)*
Coordinator: Chuck Coe, NASA OIG, 202-358-2573, Chuck.E.Coe@nasa.gov
 - *Oversight Working Group (consisting of auditors, inspectors, and evaluators)*
Coordinator: Brent Melson, NASA OIG, 202-358-2588, Gregory.B.Melson@nasa.gov
Coordinating Working Group (consisting of members representing all OIG disciplines)
Coordinator: David Cushing, NASA OIG, 202-358-2572, David.M.Cushing@nasa.gov

<p><i>For general information about the IT Roundtable or to be included on the Roundtable’s e-mail distribution list, please contact David Cushing via e-mail at David.M.Cushing@nasa.gov.</i></p>
