FMM 9387 REPORTS ON VIOLATIONS, 31 USC 1351

FMM 9383  INTERNATIONAL TRANSACTIONS OF THE FEDERAL GOVERNMENT, SF 13

9383-1  GENERAL

NASA is required under the provisions of the Department of Commerce Directive No. 19 to report quarterly to the Department of Commerce all transactions affecting the international balance of payments, including transactions, which, although initiated by the Agency, are included in the private sector. The authority for the system of reports is contained in NPD 9380.1_, Subject: NASA Transactions Affecting the International Balance of Payments.

9383-2  REQUIREMENTS

a. GENERAL

(1) Transactions to be reported relate to payments and receipts, which affect the balance of payments. Included are all transactions between NASA and a foreign entity such as a foreign government, foreign corporations excluding U.S. business offices of such corporations, foreign incorporated subsidiaries, foreign business offices of U.S. corporations, foreign individuals residing in foreign countries, NASA personnel stationed abroad or traveling abroad, and U.S. business organizations for services to be performed abroad. See FMM 9311-2 for the subsequent external reporting of this data by Headquarters.

(2) Formal accounting records are not required for segregation of reportable transactions.

b. CONCEPTS TO BE FOLLOWED

(1) Generally, the foreign government or the foreign country in which the payee resides should be used as a guide for reporting by country. Corporations are considered to be residents of the country in which they are incorporated, and business offices are considered to be residents of the country in which they are located. Payments to U.S. contractors for services to be provided abroad should be identified by the country in which the work is performed.

(2) Reimbursements between U.S. Government agencies will be excluded from this report.

(3) To the extent practicable, transactions should be reported at the time of transfer of possession in the case of goods and the actual performance in the case of services. Disbursement records may be used in lieu of actual performance or transfer of goods where such disbursements are made within 30 days of the transaction.
(4) When documents or other records do not provide all of the information necessary to prepare the reports, estimates may be used if they are reasonably accurate, reliable, and identified as such. The basis on which the estimate was made will be furnished as a footnote.

9383-3 FORMAT

The reports will be submitted in the format of FMM Appendixes 9383-3A through E. Separate reports will be submitted for each foreign country.

9383-4 PERIOD COVERED

The reports will cover transactions for each calendar quarter, and will not be on a cumulative basis.

9383-5 RESPONSIBILITY

Responsibility for preparation and submission of the required reports is assigned as follows:

a. to Center Directors for all transactions under their cognizance. The report will be prepared by Financial Management Offices, with assistance as necessary from officials responsible for the transactions;

b. to the Associate Administrator for Headquarters Operations for all transactions under the cognizance of Headquarters' program and staff offices. The report will be prepared by the Regional Finance Office, Goddard Space Flight Center, Code 151, with assistance, as necessary, from Headquarters program and staff offices for transactions for which they are responsible;

c. to the Accounting, Reporting and Analysis Branch, Code BFB, for preparation of the Agency consolidated report and submission to the Department of Commerce; and

d. to the Director, Financial Management Division, Code BF, NASA Headquarters, for the approval of the consolidated agencywide submission.

9383-6 SUBMISSION

One copy of each report (FMM Appendixes 9383-3A through E), as appropriate, will be submitted so as to reach Headquarters no later than the 30th calendar day after the end of the calendar quarter being reported. The due date for the September 30 report will be prescribed annually in FMM Appendix 9391-1A. When applicable, a negative report should be submitted by the Center. Submissions should be addressed to the Director, Financial Management Division, NASA Headquarters, Attn: Code BFB. The original of the first sheet will be signed by the Center Deputy Chief Financial Officer, Finance (DCFO (F)). Signatures on other sheets may be affixed by stamp, typing, or other means.
Specific instructions applicable to individual line items on the SF 13 (FMM Appendix 9383-3A) are outlined below. The report and any required supporting schedules will be prepared in the format illustrated in the Appendixes. If the entire report is negative, a letter so stating will suffice.
